

## De Nederlandse Bank

### Project Data

**Project:** De Nederlandse Bank

**Location:** Amsterdam, Westeinde, The Netherlands

**Market Segment:** Office

**Client:** De Nederlandse Bank

**Blind manufacturer:** Verosol Nederland

**Brief Description:** Head office of DNB

### Product Type and Fabric Type

146x QS8.2 Cassette roller blinds and 7x QS8.1 Standard FX roller blinds. All with SilverScreen, colour EC01.

**General Information:** Renovation and extension of existing building.

### Main Selection Criteria

Light and heat control in combination with a good view through. Client had very good experience with Verosol pleated blinds which were manufactured about 15 years ago.

### Problem Definition

Improvement of the total building, including solar shading.

### Solution

After a trial with SilverScreen they switched from pleated blind to SilverScreen. This because of the good combination of heat and light control with an excellent view to the outside world.
