

PROJECT DATA

Project: John Monash Science School
Project Location: Clayton, Victoria
Project Description: Educational Facility

Client: Watpac
Architect: Taylor Oppenheim Pty Ltd
Blind Manufacturer: Verosol Aust Pty Ltd
Supplier: Commercial Solutions

Product Type: 100 Ambience system Roller blinds with chain operation control.
Fabric : Silverscreen (Heat reflection), Aspect Block-out (Privacy)

General Information

Students and staff occupants require substantial protection from increased North facing solar rays, resulting in excessive heat loading and disturbing glare issues. Staff centers require further privacy conditions.

Main Selection criteria

A high performance glare and heat control fabric operating on a superior quality roller blind that maintains day time privacy while still retaining a view out.
Dark Grey in colour

Problem definition

North facing heat and glare issues for students, including privacy requirements for staff.

Solution

Metal backed Verosol SilverScreen fabric.
Block-out Verosol - Aspect.
Booster springs for smoother operation.

Verosol
