SilverScreen, Quantity: 50
General office areas - Ambience Roller
Blinds, Fabric Semi Transparent Metallised
SilverScreen, Quantity: 180
Boardrooms - Ambience Roller Blinds,
Aspect Blockout Fabric, Quantity: 20

Arguments in favour of choice made

Verosol SilverScreen fabric was selected
to provide solar comfort while still

maintaining views. Large drops on the
ground level required a durable roller system.

Main selection criteria

Heat and glare control.
Outside vision.
Quality blind system.

Problem definition

Large office building with several facades
receiving direct sun exposure and
large ceiling height on ground level.

Requirements of client/architect

Verosol SilverScreen fabric could deliver
heat and glare reduction while still
providing a view to occupants.
Large 60mm tube on Roller blind provided
durable system to support the large 4.7m
drops on ground level.

Solution

Ambience 60mm tube chain operated
roller blinds.
Semi transparent SilverScreen fabric
Colour Dark Grey.
