Arguments in favour of choice made

Fabric was selected to provide occupant comfort by reducing heat and glare whilst maintaining outside vision.

Main selection criteria

Heat and glare reduction.
Quality components.

Problem definition

Large areas of glass covering all facades of the building receiving direct sunlight.

Requirements of client / architect

Blinds must be easily maintained, durable, provide effective sun protection and maintain outside visibility.

Solution

Mode Chain operated Roller blinds with F/R Semi-transparent 809 Fabric colour parchment.
