

PROJECT DATA

Project: EPR Architects

Location: Millbank, London, UK

Project Description:

An open plan, modern office environment even with more standard window sizes still requires appropriate solar shading to control heat and light gain.

This leading architect's practice chose Verosol roller blinds as the ideal solution and to complement the contemporary styling of their new offices.

Requirements:

- Control of thermal gain
- Control of glare

Solution:

177 roller blinds, manually operated with SilverScreen fabric:

Light transmission 5%
Solar transmission 5%
