**Supplier/Installer:** W & E, Frankfurt

**Brief Description:** Office with 42 floors and a height of 168 mtrs.

### Product Type and Fabric Type

Roller blinds with SilverScreen

Motorised and chain operated

### General Information

The aim was to create the best working conditions in a pleasant room climate.

### Main Selection Criteria

The main selection criteria was the fulfillment of the requirements of the directives regarding glare control on computer monitors and also to meet the high demands to the solar control.

### Problem Definition

Due to the construction of the building, outside sun protection was not an option.

### Solution

Rollerblinds with Verosol SilverScreen
