Project Description: Internal fit-out with  
3312 Verosol blinds

Client: CB Richard Ellis  
Architect: Harry Seidler  
Interior / Project architect: Harry Seidler  
Blind manufacturer: Verosol Australia Pty Ltd  
Supplier / installer: FWF Commercial Blinds

Products: Verosol 878 Pleated metal  
backed blinds 1600 x 2500

### Arguments in favour of choice made

Exterior facade same look throughout  
building.  
Reduce heat and glare for comfort of  
occupants.

### Main selection criteria

Ease of use and minimal stacking when  
blind is up.  
Large reduction of heat on glass.

### Problem definition

Large area of glass with North and West  
aspects.

### Requirements of client / architect

Effective reduction of heat for internal  
comfort.  
Low level maintenance.

### Solution

Verosol 878 pleated metal backed blinds  
on all facades.
