2040

Arguments in favour of choice made

Reduction of glare for comfort of internal
occupants while maintaining views.
Blinds to be easy to operate and maintain.

Main selection criteria

Glare reduction.
Ease of Use.
Fabric Durability.

Problem definition

High levels of glare.

Requirements of client / architect

Large amount of staff using blinds so
ease of operation was a necessity.
Reduction of glare for occupancy.

Solution

Verosol Ambience Veroscreen
Charcoal/Grey Roller blinds.
